Develop an application using MVC, Agile concept

Skill

Diabetes Management

I have Diabetes Mellitus (Type 1) since I was 12 caused by genetics, Diabetes is a disease which require your attention, management skill and responsibility, if you can control it you are a normal person. For the past 10 years I've proven that I can maintain it well and can perform everyday tasks like the others.

Certification

IBM Certified Solution Developer -- XML 1.1 and Related Technologies, 2012
